

MADERA CANYON PLANTS & ANIMALS

Lots of nature lives in Madera Canyon!

Mountains, forests and streams make a perfect home for many plants and animals.

Explore the canyon trails to find the plants and animals that make it such a special place.

Some plants and wildlife are common and easy to see. Others are rare or harder to find.

Please respect and help protect the canyon, so others can enjoy nature here for years to come!

Are you prepared?
Do you have these items?

- appropriate clothing
- map & compass
- food and plenty of water
- sun protection: sunscreen, sunglasses
- first aid kit
- a flashlight
- a small shovel (for sanitation)
- a pocket knife
- a whistle

Always tell a family member or friend where you are going!

Don't drink the water!

Pack out all your trash or place it in garbage cans!

Watch for wildlife—black bears live here!
